Ocado is an online supermarket and the largest online food retailer in the world. It is listed in the FTSE 250 index of the London Stock Exchange.

We wish to confirm that the personnel of Ocado Technology department in Kraków participated in a series of training sessions led by the coach Michał Sajdak from Securitum.

The topic of the training was “web application security”. It was fine-tuned to our needs and the nature of work of our IT specialists. The form of the training was a practical workshop with task-oriented approach to the matters presented. The participants appreciated the conduct of training, the quality of training materials and the organisation of the workshop.

We recommend Securitum company, as a provider of professional IT security training services. This regards both the content being taught as well as the organisational aspect.
